WHAT IS E-SUBMISSION?

E-submission is the process of electronically submitting candidates' work safely and securely to WJEC/WJEC Eduqas. Work is submitted for the purpose of assessment and/or moderation.

How do I submit the work electronically?

Work is submitted using an online portal called Surpass <https://wjec.surpass.com/Login>

In order to submit your candidates' work electronically (either a sample or full cohort), you will be allocated a 'keycode'. Without the keycode, you will not be able to submit your work electronically – guidance on keycodes is included in this guide.

What subjects require work to be submitted electronically?

The list of subjects that use e-submission can be found here: <https://www.wjec.co.uk/home/administration/e-submission/>
<https://www.eduqas.co.uk/home/administration/e-submission/>

This list continues to grow; however, the process remains the same, regardless of the subject.

Surpass Websites

Exams Officers - Surpass System (to access keycodes): <https://wjec.surpass.com/Login>

Teachers - Surpass Upload Portal (to upload work): <https://wjec.surpass.com/secureassess/htmldelivery/>

What is the process of submitting work electronically?

This process is straightforward and intuitive. It involves 5 steps:

1. Setting up a Surpass account
2. Preparing candidates' work for uploading
3. Retrieving candidates' keycodes from Surpass
4. Uploading candidates' work
5. Submitting the work to WJEC / Eduqas

Please ensure you read this guidance in FULL before attempting to submit work electronically.

SETTING UP A SURPASS ACCOUNT

A Surpass account is allocated to the Exams Officer within your centre. To access Surpass, visit <https://wjec.Surpass.com/Login>.

If your Exams Officer has a Surpass account, the same Username and Password should be used. If these details have been forgotten, please select 'Can't access your account' on the Surpass homepage.

If your centre has a new Exams Officer, or you are entering an e-submission subject for the first time a new account will be created.

1. An email will be sent to the registered Exams Officer within the centre the term before the series of submission.
2. To ensure your centre receives this email, please add 'noreply@Surpass.com' to your contacts. In addition, please check your junk folder.
3. A username will already be allocated to the centre. A password and security question will need to be created.
4. To complete set up of the account follow the instructions in the email.
5. Once completed, these login details can be shared with other colleagues within the centre, at the account holder's discretion.

PREPARING CANDIDATE WORK FOR UPLOADING

To ensure you can successfully submit candidates' work electronically, it is important to ensure that these files are prepared in the correct manner BEFORE uploading.

Each subject has specific requirements. These include:

- file types accepted for each subject
- the number of files accepted
- the maximum upload sizes

Please use the E-submission Process Subject Guide 2023 – 2024 for information for specific subjects.

Where candidate work exceeds the maximum upload size please see [Appendix 1. Tips and tricks for smaller files](#)

Please note, do not use the following 'special characters' when saving work, as the work will then fail to upload: & # * \$ £ @ ' %

In the INVIGILATE tab a green tick should be displayed by each candidate/group who has had work submitted. This shows the keycode has been used and the upload is complete.

State	Keycode	PIN	Subject
✓	93WJB694		Computer Science Unit 2 GCSE

If you see another icon, not listed right, it could mean that the upload has been interrupted.

If you see another icon displayed, please contact 029 2240 4310

The most common states are listed below:

the keycode has been voided and can no longer be used

the keycode is ready for use

the keycode has been used and the upload completed

During the NEA/Controlled Assessment upload process on Surpass, human error can occur. For example, files may be uploaded to the incorrect candidate, or the upload may have not included all of the required documentation. In these or similar instances, you can request a new keycode for the candidate(s) or group admin code in question by using the form below.

[E-submission Surpass Upload - replacement keycode request form](#)

We expect to create any replacement keycodes within 2 working days of receiving a request, which will then be made available for your centre's administrative account holder to view within the 'Invigilation' tab on Surpass.

APPENDIX 1: TIPS AND TRICKS FOR SMALLER FILES

The following tips should be used in order to keep files sizes as small as possible for uploading.

This is not an exhaustive list. Your IT support may be able to offer further help with this.

SCANNING MATERIALS

Most scanning software packages have pre-sets for ease of scanning. So, look for a setting that makes your scan suitable for viewing on-screen or for emailing.

If no pre-set is available, adjust the dpi of the scan to 96.

IMAGES

Rather than submitting individual image files, add images to a Word document, for example, and then use Word to compress the images, as shown below.

Candidates may have used images in other documents. These too should be compressed, as this will reduce the overall size of the file.

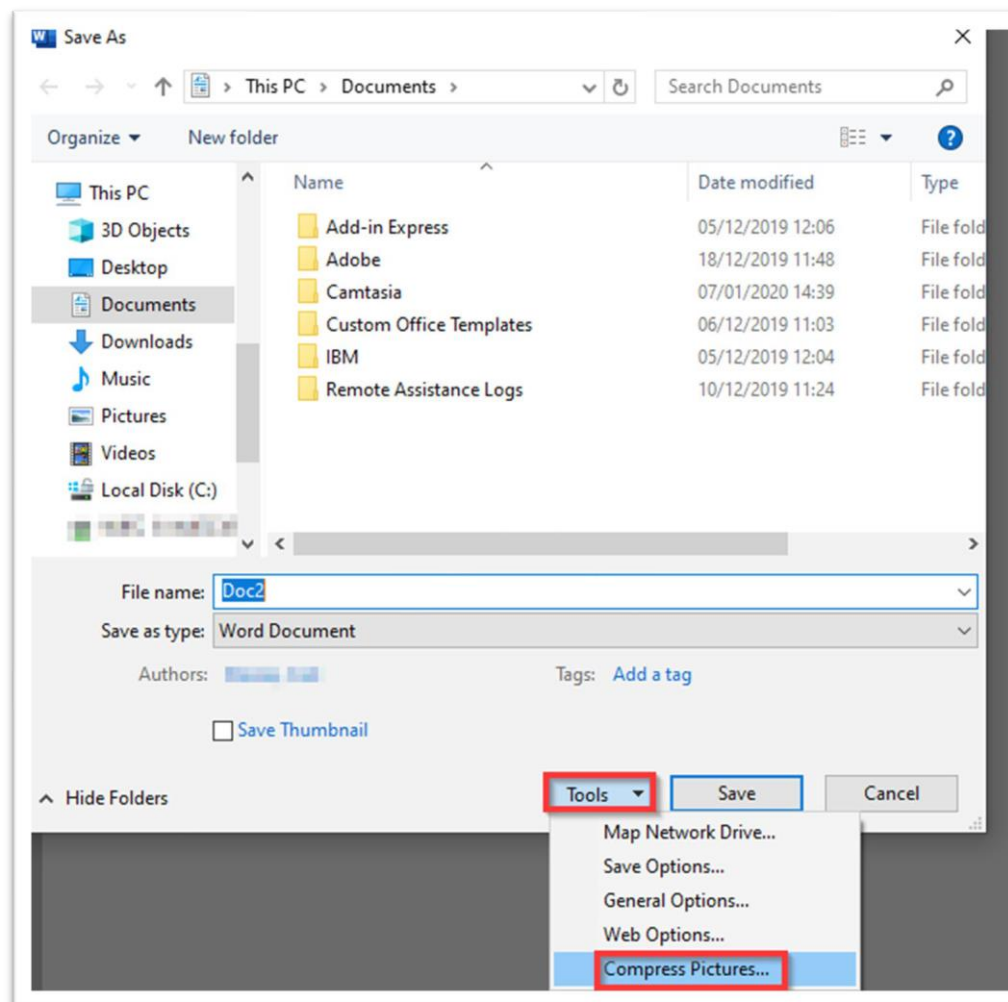

COMPRESSING IMAGES IN WORD

In more recent versions of Word, you can compress the images when you save your document.

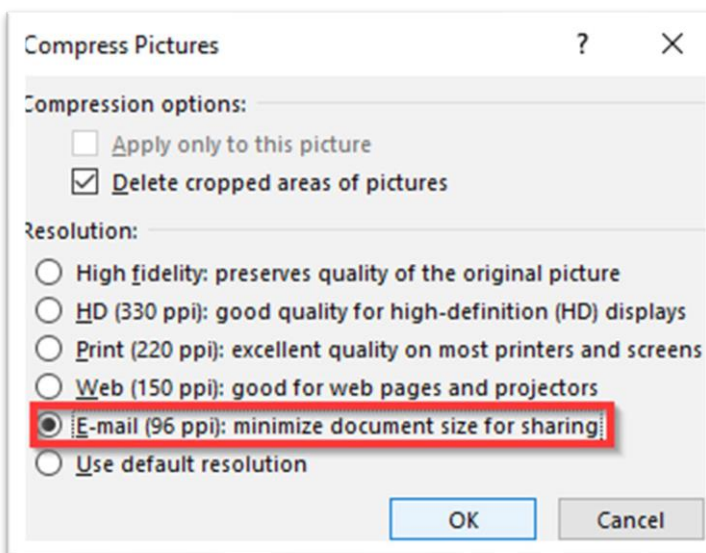

To do this:

Click FILE, then click SAVE AS or SAVE.

In the SAVE AS window, click TOOLS then click COMPRESS PICTURES.

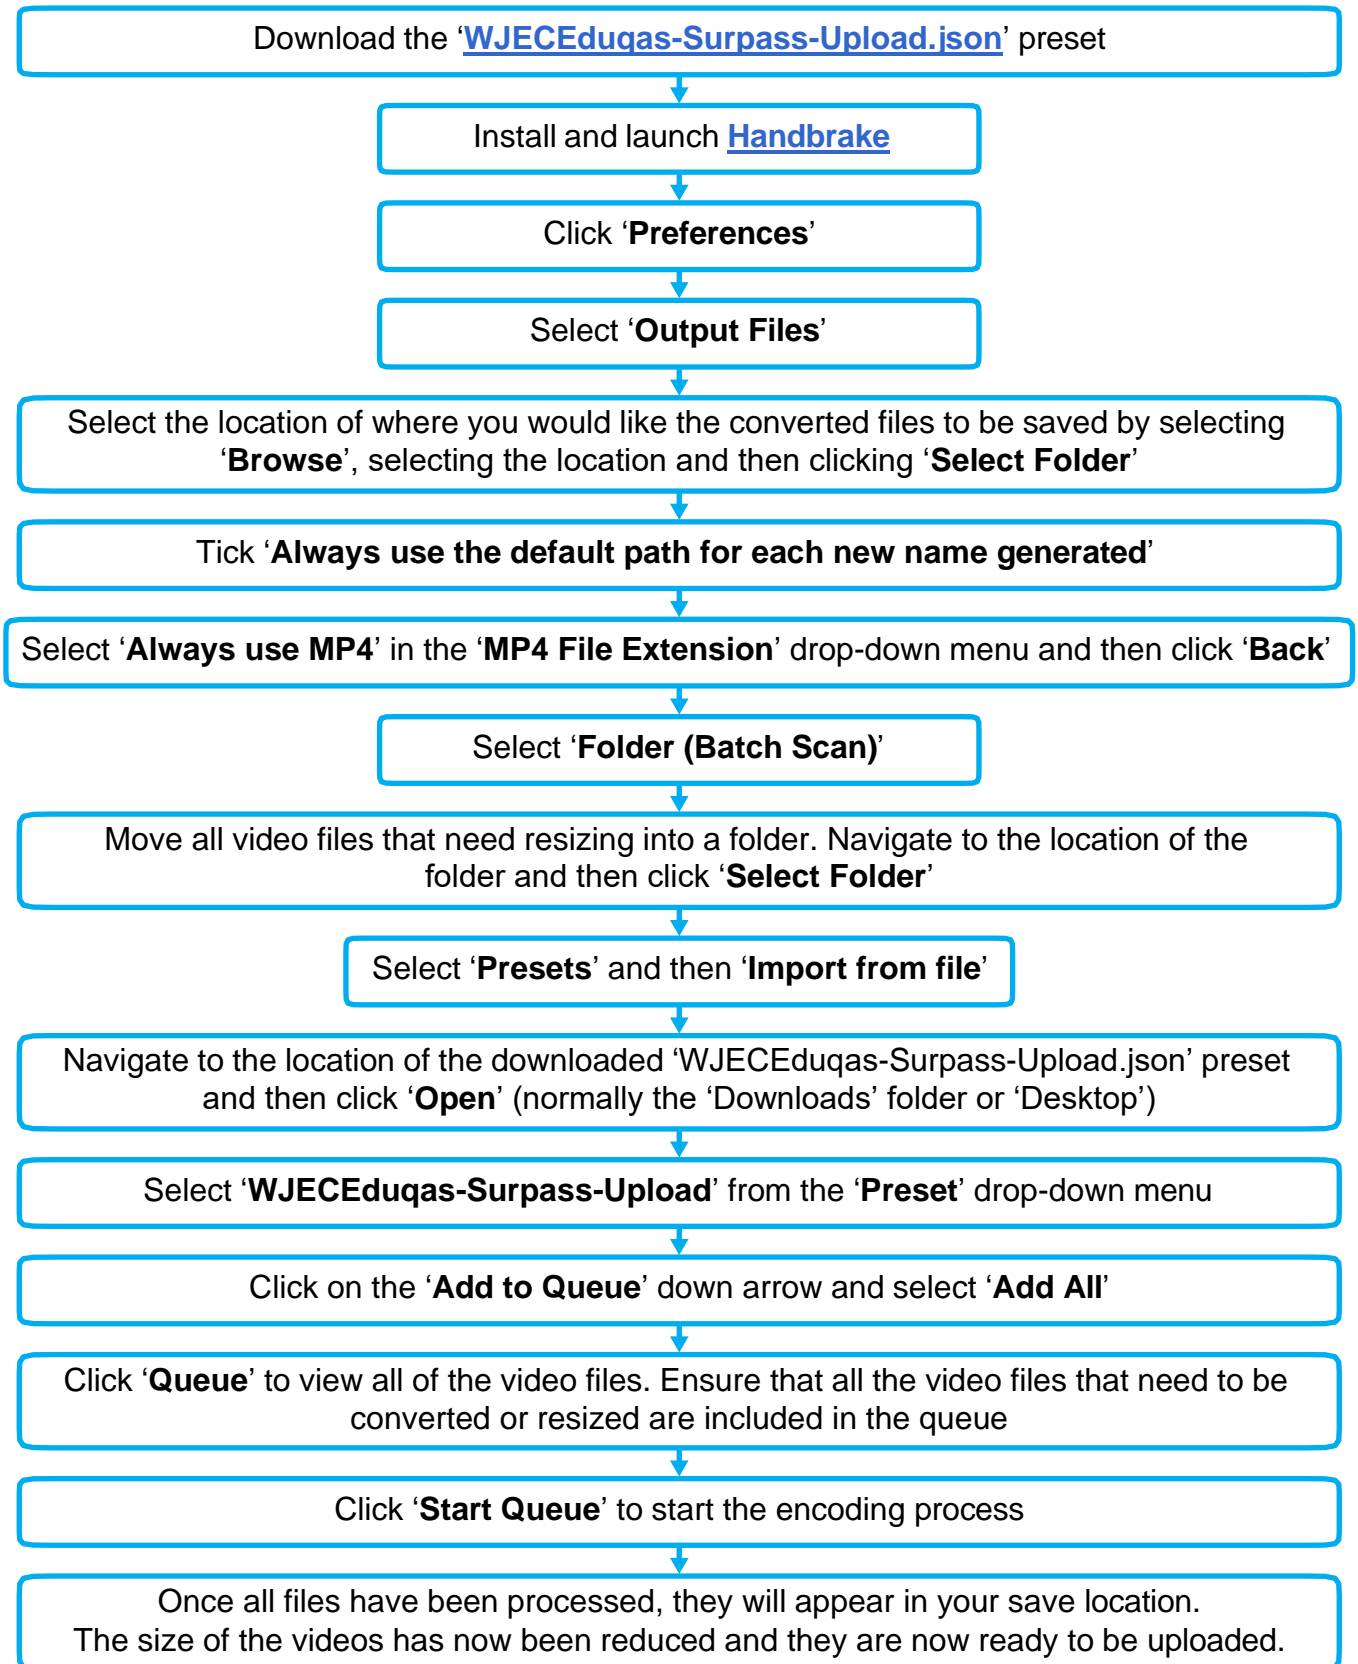

Select E-MAIL, and then click OK and save your document.

This document can then be zipped up with other files for uploading.

Use this guide in conjunction with the [‘Converting and resizing video files’](#) video guide

! Once the WJECeduqas-Surpass-Upload preset has been imported into Handbrake, it will not need to be imported again **!**
