National/Foundation

## **Global Citizenship Challenge**

Nutrition – Childhood Obesity

**Senedd Cymru  
Welsh Parliament**

**Available for assessment from September 2015**

# Nutrition: Childhood Obesity

## PURPOSE

The purpose of the Global Citizenship Challenge is to develop learners' skills, whilst providing opportunities to understand and respond appropriately to global issues. During the Global Citizenship Challenge learners will explicitly develop skills of Critical Thinking and Problem Solving and Creativity and Innovation and apply them in an appropriate manner.

## BRIEF

Your school has been given the opportunity to submit evidence before a Senedd debate on childhood obesity. There is general agreement amongst politicians that childhood obesity is a problem that needs to be tackled. There is also agreement that there isn't a silver bullet to solve the problem. During this Challenge you

will use a variety of information on childhood obesity to investigate different views of people and identify your own ideas on childhood obesity. You then must raise awareness of this matter with Members of the Senedd in a creative and innovative way. You should design your raising awareness so that it will appeal to 'raise awareness' in order to appeal to Members of the Senedd and make use of effective communication by providing a clear message which is memorable, original and relevant. By completing this Challenge, you will show that you can reason, make judgements and make decisions in order to create an informed personal standpoint on childhood obesity. The raising awareness allows you to show how creative and innovative you can be in communicating your ideas and presenting your message to other people.

## CONTACTS

You can contact the Senedd's Education and Youth Engagement Service to discuss your work
