

Meet the RSO – Rhys Huws

I'm originally from Mold, a small market town in north east Wales not far from Chester.

Thirty years ago, I started on my journey towards south Wales. Firstly, I attended Aberystwyth University to study Geography. Following university, I became a geography teacher in a Welsh medium secondary school in the old county of Dyfed. During my time as a teacher I undertook a variety of different roles – Head of Department, Head of Year, Examination Officer and Welsh Baccalaureate Coordinator.

I was a Welsh Baccalaureate coordinator in one of the schools that piloted the qualification at Key Stage 4 in 2006. Since then I have been involved with the qualification in a variety of different ways. I am a strong advocate of the Skills Challenge Certificate and can see that the development of skills is extremely valuable for higher education and future employment.

Interesting/Random fact – I am an avid sports fan. I enjoy following the Scarlets and Liverpool FC in my spare time.
